6F COMMONS

同在一個世界 Sharing the world

散步、遊玩、吃吃、喝喝、稍事休息。 這裡,一方面能近距離感受生物們的日常, 一方面也是我們能渡過隨性片刻的水邊。

一個能跨越差異並分享同在時光的、大家的廣場。

The waterside is a place to spend time as we likewalking, playing, drinking, eating, taking a break. Relaxing at the waterside, we can feel the pulse of life in many forms. It's a place for transcending differences and spending time together.

5F SCOPE

凝視未曾發現的世界

Revealing parts of the world not seen before

從對面、從角落、從配角、從書本或模型。 若從以往不太有光線照到的角度來觀察生物的話, 便可發現自然界的不可思議之處。 觀賞到的景色,將是一種全新的景色。

Looking at life forms from unusual angles reveals wonders of the natural world. Try looking from the other side, or from a corner. Try looking as a buddy, or through books and models. It can open your eyes to new facets of familiar scenes.

4F CONNECT

人與水的世界相連

Our connection to the aquatic world

海水蒸發成雲、變成雨落到地面、 順著河水流入大海。 重現地球持續不斷的水的接力, 研究水生生物的生態或未來的實驗室。 將這個設施的環境,設置成有如我們這個地球般的環境。

Clouds form above the sea, then rain on the land. Rivers take water back to sea.

This is the water cycle that has nourished life on earth for eons. Here we research the ecology and future

of aquatic organisms, as a laboratory with an environment

that mimics the environment of the whole planet.
